WHO AM I

MOHAMED ADRIK

SENIOR SOFTWARE DEVELOPER

Adrik has a master's degree in Computer Science from the University of Oslo (UIO). He also has a bachelor's degree in Dynamic web-design from the University of South-Eastern Norway (USN). Adrik has through education gained great insight into IT and especially in programming, agile systems, database administration, usability and interaction design. In addition to his studies, he has for two years been employed by Schlumberger as a system developer where he programmed in Microsoft.NET and contributed to work related to optical sensors.

He now works at the Norwegian Public Service Pension Fund (Statens Pensjonskasse) as a senior software developer with expertise in software development within the norwegian public and energy sector. Adrik is passionate about working in situations where good problem-solving abilities are required. The combination of teamwork and independent work is especially something that appeals to him. He is positive, responsible, and fond of technical challenges.

JUNIT 5 - 30%

WIREMOCK / MOCKITO - 40%

ROLES

SOFTWARE DEVELOPER - 80%

TEST DEVELOPER - 15%

OPERATIONS DEVELOPER - 5%

EXPERIENCE

Senior Software Developer – Norwegian Public Service Pension Fund

Mar 2026 - Current

Currently working at the Norwegian Public Service Pension Fund (Statens Pensjonskasse) as a senior software developer. Worked mainly as back-end-developer with knowledge in using multiple modules in the Spring Framework Ecosystem.

Senior Consultant – Knowit

May 2019 - Mar 2026

Previously worked at Knowit as a senior consultant. Assigned work among other project(s): Norwegian Public Service Pension Fund (Statens Pensjonskasse) and Statnett.

Senior Consultant – Sogeti

Jun 2018 - Apr 2019

Worked at Sogeti as a senior test developer. My work was mainly related to testing and software development within the norwegian energy sector, this included developing and maintaining automated tests with java and maven. This has given me experience in holding different roles during the systems development life cycle (SDLC).

Consultant – Sogeti

Jun 2016 - Jun 2018

Worked as a test developer for a number of companies within the norwegian energy sector. My work was mainly related to smart grid and advanced metering infrastructure. This has given me experience in test development, test automation and performance testing.

Trainee – Sogeti

Sept 2015 - Jun 2016

I participated in Sogeti's Trainee program - autumn 2015, where I did a 5-week intensive test course at Nordic level. The program has given me broad knowledge of the test subject and prepared me to hold several different positions within software testing.

Research Interviewer – Statistics Norway

Oct 2011 - Aug 2015

As a research interviewer at the data collection department of Statistics Norway (Statistisk Sentralbyrå), my responsibilities included data collection and processing of data gathered for a number of public research projects.

EDUCATION

Master Degree – Informatics: Design, use and interaction

Aug 2013 - Jun 2015

University of Oslo (UIO)

Bachlor Degree – Dynamic Web-design

Sept 2010 - Jun 2013

University of South-Eastern Norway (USN)
